

GUARDY EXT
GARAGE DOORS
WITH EXTENTION SPRINGS

TYPE OF TRACK

Track	Type	Lintel height with/ without motor - lintel sealing	Min. side space	Max. m ²	Max. dimensions
EXT - extension springs	EXT	0-100 / --125	0-95 mm	8,5 m ²	4 000 x 2 625 mm

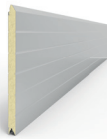

Standard heights of sets (galvanized vertical angle)

1 875 mm 2 000 mm 2 125 mm 2 250 mm 2 375 mm 2 500 mm 2 625 mm

Renovation (RENO) sets (white vertical angle)

1 955 mm 2 080 mm

PANELS

Surface structure

- Lamella stucco
- Central rib
- V-profile
- Flat plain

Outside color

According to current panel offer

Inside color

RAL 9010

Finger safe protection (FSP)
Polyurethane foam core
Double side hot dip galvanizing
U = 0,50 W/ m² K
R = 25 dB

WINDOWS

- Placement of windows according to customer's wish
- Stainless steel or plastic window frames
- Painting of window frames in shades RAL, NCS, DB (excluding stainless steel frames)

ALUMINIUM FULLY GLAZED SECTIONS

Technical advantages

- Standard design with anodized aluminium frame E6/EV1
- Sections with or without thermal break
- Choice of different fillings depending on design, thermal insulation properties and air permeability
- Possibility of additional painting of aluminium frames to RAL, NCS, DB

Design with thermal break

- For panels PROTECT (40 mm)
- Design identical with current fully glazed solution with finger safe protection
- Excellent insulating properties (decreased heat permeability up to 22%)
- Stopped water condensation on the inside (exterior vs interior)

MOTOR TORMATIC

- Long service life, reliability and fast motion (17-24 cm/s)
- Cog belt ensuring silent motion does not require any maintenance while shelf-life
- Thanks to Soft-System function the motor has a slight start and soft stop, which saves mechanical parts of the door and the operator itself
- 2 pieces of three-channel remote controls supplied as standard

MOTOR CUBE

- For doors with max. doorleaf area 11 m²
- Steeltrack with cog belt made of massive galvanized steel
- Elegant black cover design
- Programmable LED light
- Automatic closing setting
- SoftStart and SoftStop function
- Obstacle detection
- 2 pieces of four-channel remote controls supplied as standard
- Wifi module for easy operation through smartphone
- Set for easy assembly is included in the packing

MOUNTING OPTIONS

- EXT tracks can be installed behind/ into the opening or partially into the opening
- For all types of installation we offer special types of sealings and cover profiles to adapt the design to the building situation
